

Elementary and Secondary Education Act (ESEA) Schoolwide Program Plan

The Title I, Part A Schoolwide Program Plan template was designed to ensure each school site plan is fully developed according to the requirements in [ESEA Section 1114](#). The Title I, Part A Schoolwide Program Plan must be reviewed and submitted annually to the Oklahoma State Department of Education (OSDE) as a part of the Consolidated Application.

1. In the space below, enter the school year (Example 2024-2025) the plan will be implemented.

2025-2026

2. In the space below, enter the date (month, date, year) the plan was last reviewed. The date should be within the current calendar year.

April 22, 2025

3. In the table below, enter the requested information for the district.

District Information	
District Name:	Chickasha
District Number:	I001
County Name:	Grady
County Number:	26
Superintendent Name:	Rick Croslin
Email Address:	rcroslin@chickasha.k12.ok.us

4. In the table below, enter the requested information for the school site.

School Information	
School Name:	Lincoln School Intermediate Center
School Site Code:	115
Principal Name:	Angela Morgan
Email Address:	amorgan@chickasha.k12.ok.us
*School Poverty Rate:	73.94%

*Required for the school to report. Please consult with district personnel regarding the rate reported in the Consolidated Application (Grants Management System).

Instructions

The template is composed of five sections. Each section has three parts.

- The first part outlines the relevant passages in ESEA and contains a check box where the school principal will certify that the legal requirements have been met.
- The second part describes the expectations for the narratives.
- The third part is a text box where the narrative responses are to be entered. There is no word or character limit, and the text box will expand.

Elementary and Secondary Education Act (ESEA) Schoolwide Program Plan

1. Parent and Community Stakeholder Involvement

- ☒ By checking this box, the school principal certifies that:
- the plan is developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators (including administrators of programs described in other parts of this title), the local educational agency, to the extent feasible, tribes and tribal organizations present in the community, and, if appropriate, specialized instructional support personnel, technical assistance providers, school staff, if the plan relates to a secondary school, students, and other individuals determined by the school. [ESEA Section 1114\(b\)\(2\)](#)
 - the plan is available to the local educational agency, parents, and the public, and the information contained in such plan shall be in an understandable and uniform format and, to the extent practicable, provided in a language that the parents can understand. [ESEA Section 1114\(b\)\(4\)](#)
 - the school meets the requirements of Section 1116 of ESEA, including the development and implementation of a parent and family engagement policy that includes a school-parent compact outlining shared responsibility for high student academic achievement. [ESEA Section 1116 \(b-g\)](#)

Expectations

- Specific strategies to increase family and community stakeholder involvement, particularly among those who represent the most at-risk students, based upon results of the needs assessment have been identified and implemented.
- Parents and community stakeholders who reflect the demographic composition of the school, including those who represent the most at-risk students, are included as decision makers in a broad spectrum of school decisions, including the development and monitoring of the Title I schoolwide plan.
- The school vision and mission for student success are collaboratively developed based on the beliefs and values of the school community, including families and community stakeholders who represent the most at-risk students.
- The Title I schoolwide plan, as well as all communication regarding its development, evaluation, and revision processes, are available in languages and formats accessible for every family and community stakeholder of the school.

Addressing the above expectations, describe in the box below the strategies to increase family and community stakeholder involvement.

1. Specific strategies to increase family and community stakeholder involvement, particularly among those who represent the most at-risk students, based upon results of the Needs Assessment have been identified and implemented.

- Lincoln uses many avenues of communication. These include paper notes, monthly newsletters, school Facebook page, school website, calendars, marquee, agendas, email, phone messages, classroom applications (Remind), conferences, and access to parent portals for programs.
- Lincoln Meet/Greet (Parent Informational Meeting)-held one evening prior to the start of school. Parents receive information addressing Title I participation, student agendas, handbooks, Study Island programs, Oklahoma Academic Standards (OAS), online resources, curriculum calendars, assessments, classroom procedures, and schedules. A packet is also provided to parents. This information about Lincoln's schoolwide status/resources, a summary of the site Title I plan, and

the Parent Participation Policy. For any parent who does not attend, a packet is sent home. The time/date/location of Lincoln's Meet/Greet (Parent Informational Meeting) is announced on the school Facebook page and the home page of the school website. In addition, announcements may be made on the school calendar or mass generated phone call.

- USAO-The school cultivates relationships with the local university for the mutual benefit of each site's students and staff. This is done through the use of teacher mentors and USAO students volunteering at Beautiful Day.
- School/Parent/Student Compacts are available on the school website. Compacts detail how teachers, parents, and students work together to maximize academic achievement and can guide discussion during conference time. The compact is reviewed and updated at the annual site Title I meeting.
- Conferences-Parent-teacher and/or parent-student-teacher conferences with classroom teachers are scheduled according to the district calendar for all students. Other conferences may be scheduled as needed. Conference time will include guidance for parents in interpreting assessment results and monitoring their child's progress.
- Programs, Activities, and Celebrations-scheduled throughout the year. Parents are encouraged to attend, volunteer, or participate at events to involve them in their child's education.
- Parent Information/Materials/Training-offered periodically throughout the school year and the beginning of summer. In response to needs assessment/survey data, information/materials/training are provided for parents seeking to support their child's reading or math achievement.
- Home Language Surveys-conducted and maintained by the coordinator of EL records. The home language surveys are used as resources to identify parents whose involvement could be enhanced by having access to non-English achievement reports, surveys, or other written communication.
- Parent Involvement Survey-offered annually each spring. Parents may give feedback concerning resources, communication, safety, and culture. The survey is provided on paper and in electronic form. Data is summarized for the site planning team and shared as appropriate.

2. Parents and community stakeholders who reflect the demographic composition of the school, including those who represent the most at-risk students, are included as decision makers in a broad spectrum of school decisions, including the development and monitoring of the Title I Schoolwide Plan.

- The core planning team members were selected to represent all groups served by-and charged with implementing-our schoolwide plan. This includes principals, Title I personnel, classroom teachers, student services personnel, and parents. All groups were kept informed of our planning process/progress and invited to participate or provide feedback. Final approved plans

are sent electronically to all planning team members and school personnel. Additionally, printed copies of the plan are available for review at all times.

- During the spring planning process, all parents have the opportunity to complete a parent involvement survey and give feedback concerning resources, communication, safety, and culture. The survey is provided on paper and in electronic form.
- Parent representatives are included on the site planning committee. All parents are informed of the proposed updates to the plan and the meeting date/time. Parents are encouraged to provide feedback and are invited to attend the meeting.
- The schoolwide plan is available for review at any time-with tentative revisions as well as the final approved copy.
- The school offers a School-Parent-Student Compact and maintains a Parent Participation Policy to act as guiding forces throughout the school year. (See supporting documents.)

3. The school vision and mission for student success are collaboratively developed based on beliefs and values of the school community, including families and community stakeholders who represent the most at-risk students.

The Title I Mission Statement acts as the foundation for the schoolwide plan:

Title I, Part A of the Elementary and Secondary Education Act of 1965 (reauthorized in the No Child Left Behind Act of 2001, which was replaced by the Every Student Succeeds Act of 2015) provides local educational agencies (LEAs or school districts) with extra resources to help improve instruction in high-poverty schools and ensure that poor and minority children have the same opportunity as other children to meet challenging state academic standards.

The vision and values collaboratively developed by Lincoln School Intermediate:

Values:

- Respect
- Expectation
- Attitude
- Learning

Lincoln School Intermediate's collaboratively developed Mission Statement: The mission of Lincoln School Intermediate is to create for all students an educational experience that prepares them for college and career readiness at the elementary level.

4. The Title I Schoolwide Plan, as well as all communication regarding its development, evaluation, and revision processes, are available in languages and formats accessible for every family and community stakeholder of the school.

Lincoln School Intermediate's Schoolwide Plan is available to all stakeholders in many formats: printed summary form, electronic (email, Google Drive, school website link), and full printed copy upon request at any time. Additionally, the district is in the process of securing services to enable quality translation of the schoolwide plan into alternate languages for wider community access.

2. Comprehensive Needs Assessment

☒ By checking this box, the school principal certifies that the schoolwide plan was developed based on a comprehensive needs assessment of the entire school that took into account information on the academic achievement of children in relation to the challenging state academic standards, particularly the needs of those children who were failing, or were at-risk of failing, to meet the challenging state academic standards and any other factors as determined by the local educational agency. [ESEA Section 1114\(b\)\(6\)](#)

Expectations

1. Includes a variety of data, including performance (e.g., local and state student assessment data) and non-performance student data (e.g., student attendance), and process data about the schools system (e.g., diagnostic review) and perception data, gathered from several sources.
2. Includes detailed analysis of performance and non-performance data for each student subgroup identified in 1111(c)(2) of ESEA (economically disadvantaged students, students from major racial and ethnic groups, children with disabilities, and English learners).
3. Examines student, teacher, school and community strengths and needs.
4. School leadership, in collaboration with families and community stakeholders, identifies a manageable number of priorities, at the right level of magnitude and aligned with the needs assessment, for school improvement.
5. Evidence shows that the school's Title I schoolwide plan and cycle of continuous improvement has improved outcomes for all students, particularly those most at-risk.

Addressing the above expectations, describe the outcomes of the school's comprehensive needs assessment, as well as a description of the data sources used in the process. The results should include detailed analysis of all student subgroups; an examination of student, teacher, school and community strengths and needs; and a summary of priorities that will be addressed in the schoolwide program.

1. Includes a variety of data, including performance (e.g., local and state student assessment data) and non-performance student data (e.g., student attendance), and process data about the school system (e.g., diagnostic review) and perception data, gathered from several sources.

Student Achievement Data

- Renaissance/STAR assessment data is collected (at a minimum) at the beginning, middle, and end of the school year.
- OSTP data from spring assessments typically is not available until summer, but data from the previous year is reviewed.
- Data from curriculum-based common formative assessments is collected in accordance with grade-level curriculum calendars.

- Data from curriculum-related programs (e.g., Study Island, Mastery Connect, and Renaissance Place) is collected in real-time. Reports are generated for desired intervals and purposes.

Perception Data

- Staff, parent, and student surveys are offered in the spring. Feedback is summarized and shared to assist with planning.
- Professional development feedback is collected after each professional development offering.

Demographic Data

- All demographic data (including attendance) is maintained in the school and central office. It is updated continually and available for review at any time.

2. Includes detailed analysis of performance and non-performance data for each student subgroup identified in Section 1111(c)(2) of ESSA (economically disadvantaged students, students from major racial and ethnic groups, children with disabilities, and English learners).

- Renaissance/STAR Screening, Summary, Annual Progress, and Growth Reports are analyzed and data is included in the Comprehensive Data Profile. The data is viewed through the lenses of both achievement and growth. For each grade level and subject, the team considers the percent of students above both STAR benchmark (40th percentile) and OSTP benchmark, how that changes over the year, and how those figures compare with previous years. The team also considers the changes in mean Scaled Scores and associated Percentile Ranks over the year as well as how our changes look in the context of previous years. Finally, the team considers the percentage of students attaining their personal growth targets for the school year, how that data compares with national “typical growth” norms, and how the data looks when compared to previous years. Further, reporting groups are used to monitor the achievement/growth of subgroups (Title I intervention students, EL students, and students served with an IEP) in relation to their grade-level peers. Reporting capabilities in Renaissance also allow for viewing data according to racial/ethnic groups and any characteristics indicated in the program. (See supporting documents for the Comprehensive Data Profile.)
- OSTP data available for review typically runs one year behind. School A-F Report Card data for achievement and growth is filtered and viewed for each subgroup. (See supporting documents for the School A-F Report Card.)
- Study Island, Mastery Connect, and Renaissance Place provide detailed student information in real time. Summary/dashboard data is analyzed to determine how students overall are progressing through the programs and in relation to personal goals. The team considers the grade/achievement/mastery levels for each subject as well as major categories of sub-skills.
- Teachers are compensated for entering common formative assessments on a district-wide utilized platform to ensure student data is measured in a uniform manner to address students’ academic needs and to improve student achievement.

- Surveys (staff, parent, and parent) are offered in the spring. After collecting responses for at least two weeks, all data is summarized for the planning team and shared as appropriate. In addition, professional development feedback is sought after each offering. The principal or administration relays key elements of feedback to the planning team.
- Demographic data is provided by the school and central offices. The team considers significant changes and ongoing trends in the make-up of the school's student body and staff. Also, the team reviews overall attendance and discipline data to identify trends and areas of concern. As reporting capabilities become enhanced, the team will further be able to view attendance and discipline data through the subgroup filters.

3. Examines student, teacher, school and community strengths and needs.

Strengths

- Majority of parents responding to survey feel welcome, participate in school activities, and are willing to learn more
- Growth mindset as we work toward meeting individual needs of both teachers and students
- Majority of students ending the school year above the 40th percentile in STAR Reading than the national average for 5th and 6th grades
- Majority of students ending the school year above the 40th percentile in STAR Math than the national average for 5th and 6th grades
- Overall STAR Reading and STAR Math scores reflect the majority of students in 5th and 6th grades meet their expected growth targets (indicated by SGP) and that median SGP scores are within or beyond typical growth ranges
- Reading and math tutors provide effective support--even though limited in budget/hours of availability

Areas of Need

- Achievement – the percentage of students on-track throughout the year to perform at the Proficient or Advanced level on their next OSTP Reading/Math assessments. Increase literacy including cross-curriculum literacy in all subjects.
- Professional Development – opportunities to deepen understanding in accessing/using data, maximizing the capabilities of online resources, and investigating specific reading skill gaps
- Parent/Family Support – information and resources offered to parents about motivating/engaging their children

- Title I/Federal Programs Teacher-increase student achievement by providing remediation to students whose OAS standard specific needs are identified by common formative assessments and/or English Language Surveys

4. School leadership, in collaboration with families and community stakeholders, identifies a manageable number of priorities, at the right level of magnitude and aligned with the Needs Assessment, for school improvement.

Focus Goals

- Increase the percentage of students on/above the pathway to proficiency (as reflected in STAR Reading and STAR Math) over the baselines established in-2023-2024.
- Provide professional development opportunities and resources to deepen understanding in accessing/using data, maximizing the capabilities of online resources, and investigating specific reading skill gaps.
- Offer resources and information to parents (through a variety of means) about motivating/engaging their children.
- Provide targeted remediation by the Title I/Federal Programs teacher and Title I tutors as indicated by common formative assessments in accordance with the grade level curriculum calendars.

5. Evidence shows that the school's Title I Schoolwide Plan and cycle of continuous improvement have improved outcomes for all students, particularly those most at-risk.

- The Comprehensive Data Profile reflects general upward trends in STAR Reading/Math achievement both within the current school year and in comparison to the previous year.
- School leadership teams who view STAR data by subgroup observe no significant disparities when compared to overall groups. Particularly, English Learners and students served in Title I intervention groups demonstrate growth that often outpaces that of their grade-level peers.

(See supporting documents for the Comprehensive Data Profile.)

3. Schoolwide Plan Strategies

☒ By checking this box, the school principal certifies that the schoolwide plan includes a description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will –

- provide opportunities for all children, including each of the subgroups of students (as defined in [ESEA Section 1111\(c\)\(2\)](#)) to meet the challenging state academic standards;
- use methods and instructional strategies (consider evidence-based strategies as defined in [ESEA Section 8101\(21\)](#)) that strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education;
- address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards; [ESEA Section 1114\(b\)\(7\)\(A\)\(iii\)](#)
- provide professional development (as defined in [ESEA Section 8101\(42\)](#)) and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments, and to recruit and retain effective teachers, particularly in high need subjects.

Additional factors to consider when selecting strategies to be included in the schoolwide program -

- preschool programs [ESEA Section 1114\(c\)](#)
- delivery of services by nonprofit or for-profit external providers [ESEA Section 1114\(d\)](#)
- dual or concurrent enrollment programs [ESEA Section 1114\(e\)](#)

Expectations

1. Strategies provide a detailed, enriched, and accelerated curriculum for all students, including each of the subgroups, according to their needs.
2. The school provides multiple opportunities and evidence-based interventions for students in need and address the outcomes of the comprehensive needs assessment in a way that will result in significant improvements in student learning.
3. Timely, effective and additional assistance is provided for students experiencing difficulty mastering the state's standards through activities which may include: counseling, school-based mental health programs, specialized instructional support services, mentoring services, postsecondary education preparation, transition from preschool to local elementary school programs.
4. The school uses clear criteria and processes for student participation in a tiered model to prevent and address behavior problems and early intervention services.
5. The school uses clear criteria and processes for making decisions regarding level and length of student participation in tiered supports.
6. The school offers a range of extended learning opportunities within and beyond the school day and the school year.
7. Professional development and other activities are offered for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments.
8. The school uses clear, diverse strategies to recruit and retain effective teachers, particularly in high need subjects.

Addressing the above expectations, describe in the box below the strategies the school will use to upgrade the entire educational program in order to improve the achievement of the lowest performing students, including how and when these strategies will be implemented. These strategies should be linked to areas identified in the comprehensive needs assessment and the site budget.

1. Strategies provide a detailed, enriched, and accelerated curriculum for all students, including each of the subgroups, according to their needs.

- The Oklahoma Academic Standards provide the framework that supports the scope and sequence of skills for each grade level. For purposes of continuity, remediation, and extension, teachers can view standards in the previous or subsequent grade levels. Teacher teams create curriculum calendars--adjusting continually according to needs.
- Lincoln School Intermediate uses evidence-based core series for Reading and Math. Each series provides resources for intervention and enrichment. The reading series also provides specific resources for English Learners. McGraw Hill SRA kits were purchased as a resource for assistance with all areas of literacy intervention and enrichment.
- Teachers have a multitude of supportive curricular and cross-curricular resources to improve literacy in all areas--both digital and non-digital. These include Study Island, IXL, Generation Genius, and district textbooks.
- Buckle Down to the OAS workbooks were purchased for both grade levels in ELA and Math. Teachers utilize the curriculum for an extensive review to prepare for the OSTP. Buckle Down is closely aligned to OAS. A practice is provided for both ELA and Math.

2. The school provides multiple opportunities and evidence-based interventions for students in need, and activities that address the outcomes of the Comprehensive Needs Assessment in a way that will result in significant improvements in student learning.

In order of greatest need, students determined to be low-achieving or at risk of not meeting the state student academic achievement standards will receive targeted instructional intervention implemented by the classroom teacher, Title I/Federal Programs teacher, Special Education teacher, and/or intervention tutors.

3. Timely, effective and additional assistance is provided for students experiencing difficulty mastering the State's standards through activities which may include: counseling, school-based mental health programs, specialized instructional support services, mentoring services, postsecondary education preparation, preschool children transition to local elementary school programs.

• Classroom (Tier 1) Intervention

Classroom teachers use real-time program data to determine which students may need additional support beyond the math/reading blocks. Either individually or within small-group rotations, teachers provide support using program or teacher-selected resources. (Additionally, a certified Title I math tutor and reading tutor are available to provide support within and beyond the classroom.) Because intervention resources/activities are suggested by the curricular program, they are specifically aligned with the regular classroom material. Teachers evaluate effectiveness by monitoring how students are able to proceed independently or transfer knowledge to subsequent activities.

• Title I Reading Intervention

The Renaissance/STAR Reading scores along with common formative assessments determine which students are needing additional tutoring. Certified tutors provide reading intervention to as many students as they can accommodate in small groups. (With large numbers eligible, tutors may prioritize based on past results, access to other services, and other classroom indicators.) They use a variety of resources/activities to improve phonics/decoding

skills, vocabulary, comprehension, and fluency. In addition, tutors coordinate with the regular classroom by monitoring areas of struggle identified by STAR Reading and by supporting students as they work toward their independent reading goals. Tutors evaluate effectiveness by continually using common formative assessments, monitoring real-time data, and analyzing growth/achievement data from Renaissance/STAR Reading, Mastery Connect and Study Island.

- Title I Math Intervention

The Renaissance/STAR Math scores along with common formative assessments determine which students are needing additional tutoring. Certified tutors provide math intervention to as many students as they can accommodate in small groups. (With large numbers eligible, tutors may prioritize based on past results, access to other services, and other classroom indicators.) They use a variety of resources/activities to improve math fluency, math vocabulary, and other skills needed for each grade level. In addition, tutors coordinate with the regular classroom by monitoring areas of struggle identified by STAR Math and by supporting students as they work toward their independent math goals. Tutors evaluate effectiveness by continually using formative assessments, monitoring real-time data, and analyzing growth/achievement data from Renaissance/STAR Math and Mastery Connect.

- Title I/Federal Programs Teacher (Tier II)

The Title I/Federal Programs teacher uses the data from common formative assessments to determine which students need additional instruction on specific reading and math skills. Using a variety of resources/activities students will work in a small group setting to provide more focused reading/math instruction. A schedule will be followed to service students in math and reading instruction the entire school year.

4. The school uses clear criteria and processes for student participation in tiered model to prevent and address behavior problems and early intervention services.

- Lincoln School Intermediate uses a behavior matrix as its tiered model for addressing both positive and negative behavior.
- Classroom teachers, school counselor, and principals all have expectations outlined in the behavior matrix.
- The school office follows a tiered process for addressing chronic absenteeism as directed by district board policy.

5. The school uses clear criteria and processes for making decisions regarding level and length of student participation in tiered supports.

(Addressed in Item 3 above.)

6. The school offers a range of extended learning opportunities within and beyond the school day and the school year.

- Summer Session

Renaissance/STAR Reading and Math scores, as well as classroom teacher recommendations inform the selection process for inviting students to a summer session. When funds are available, the one-week session, Jumpstart, is an extension of the classroom reading and math curriculum. It includes instruction in the essential standards, determined by Lincoln teachers, for upcoming fifth and sixth grade students. Teachers evaluate effectiveness by documenting observations and gathering data on informal assessments throughout. In addition, teachers monitor Renaissance/STAR Reading and Math scores on the next scheduled assessment.

Elementary and Secondary Education Act (ESEA) Schoolwide Program Plan

7. Professional development and other activities are offered for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments.

- During district-designated professional development days, learning opportunities will be offered to all district personnel which support site curriculum, instruction, assessment, and/or technology use.
- In addition to district-designated days, there will be professional development offered within and beyond the school day in response to site needs. The Comprehensive Needs Assessment reveals a need to deepen understanding in accessing/using data, maximizing the capabilities of online resources, and investigating specific reading skill gaps. Professional development offered in the coming year may include HMH and/or Science of Reading.

8. The school uses clear, diverse strategies to recruit and retain effective teachers, particularly in high need subjects.

Lincoln School Intermediate maintains a continuous partnership with the University of Science and Arts of Oklahoma (USAO). This serves to provide Lincoln with access to future professional educators as well as to provide these students with opportunities to gain practical experience.

- Lincoln School Intermediate hosts USAO students as student teachers, classroom observers, and tutors.
- Lincoln School Intermediate seeks to support all teachers—but particularly those who are new to the profession or new to the school.
- First-year teachers are assigned a mentor to provide support and guidance throughout the year.
- All new teachers and those newer to the building have designated resource people to help familiarize them with Lincoln's organization, routines, expectations, curriculum, and assessments.

As it presents, information is passed on to teachers about advanced learning, free/discounted tuition opportunities, and other resources offered.

4. Coordination and Integration

Select only one box.

☒ By checking this box, the school principal certifies that, if appropriate and applicable, the schoolwide plan was developed in coordination and integration with other federal, state, and local services, resources, and programs, and the schoolwide plan outlines the ways in which funds are to be braided (in project 511). [ESEA Section 1114\(b\)\(5\)](#)

OR

☐ By checking this box, the school principal certifies that, if state, local and other federal programs are to be consolidated in project 785, then the schoolwide plan outlines the ways in which funds will be used to meet the intent and purpose of each program that was consolidated. [ESEA Section 1114\(b\)\(7\)\(B\)](#)

Expectations

1. Leverages sufficient resources (i.e., fiscal, human, time) to improve student outcomes.
2. Leverages funding streams to connect the reform strategies developed.

3. Outlines how the school will meet the intents and purposes of each funding source.
4. Outlines how funds from Title I and other state and federal education programs will be used to meet the intent and purpose of the programs.

Addressing the above expectations, describe in the box below the ways in which funds (e.g., Title III, Part A, donations, competitive grants) are to be braided in the Title I schoolwide program.

1. Leverages sufficient resources (e.g., fiscal, human, time) to improve student outcomes.

The previous sections of this plan outline the fiscal, human, and time-related resources aimed at the foundational Title I schoolwide mission of improving student outcomes.

2. Leverages funding streams to connect the reform strategies developed.

Title I

- Title I Specialist
- Certified Intervention Tutors
- Curricular Resources
- Assessment
- Professional Development
- Parental Involvement
- Summer Session

Title II

- Professional Development

JOM/Title VI

- Certified Reading/Math Tutors
- Summer Session

3. Outlines how the school will meet the intents and purposes of each funding source.

- Title I (Part A) - Ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging state academic achievement standards and state academic assessments.
- Title II (Part A) - Prepare, train, and recruit high quality teachers, principals, or other leaders.
- JOM/Title VI - Support the education of Native American students.

4. Outlines how funds from Title I and other State and Federal education programs will be used to meet the intent and purpose of the programs.

Elementary and Secondary Education Act (ESEA) Schoolwide Program Plan

- Title I and/or Reading Sufficiency provide funds for online curricular and cross-curricular resources to improve literacy (e.g., Renaissance, Study Island, Generation Genius) as well as the technology to support their use.
- Assessment data informs or works in tandem with online resources.
- All certified personnel (from all funding sources) coordinate efforts to serve learners struggling to master literacy within and beyond the classroom, both within and beyond the school year.
- Site-based instructional coaches support teachers in the efficient and effective use of classroom routines, programs, resources, technology, and assessment results.

5. Evaluation and Plan Revision

☒ By checking this box, the school principal certifies that the plan will be regularly monitored and revised as necessary based on student needs to ensure that all students are provided opportunities to meet the challenging state academic standards. [ESEA Section 1114\(b\)\(3\)](#)

Expectations

1. School leadership, including families and community stakeholders, regularly monitors and adjusts implementation of the Title I schoolwide plan based on short- and long-term goals for student outcomes, as well as measures to evaluate high-quality implementation.
2. The monitoring and revising of the Title I schoolwide plan includes regular analysis of multiple types of data (i.e., student learning, demographic, process, perception) and necessary adjustments are made to increase student learning.
3. School leadership, including families and community stakeholders, and instructional staff regularly analyze interim and summative assessment data to evaluate instructional practices, determine patterns of student achievement, growth, and changes in growth gaps across classrooms, grade levels, and content areas.

Addressing the above expectations, describe in the box below how the school, with assistance from the LEA, will annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the state's annual assessments and other indicators of academic achievement to determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the state's academic standards, particularly for those students who had been furthest from achieving the standards; and how the school will revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.

1. School leadership, including families and community stakeholders, regularly monitors and adjusts implementation of the Title I Schoolwide Plan based on short and long-term goals for student outcomes, as well as measures to evaluate high-quality implementation.

Lincoln School Intermediate's Annual Program Review details:

- Site Program Review Team
- Data Collection
- Data Analysis (including strengths and needs)

- Review of the Current Plan Strategies
- Modifications to the Plan (including revised focus goals)

School leadership keeps the intent of the Annual Program Review at the forefront:

Just as the schoolwide plan should be considered a living document, the annual review should be thought of as a continuous cycle always affecting future progress of the schoolwide program. A review of the strategies and action steps originally proposed in the plan, an analysis of data, and input from various stakeholders should inform revision of the original schoolwide plan and reflect a revitalization of the school's commitment ensuring all students have equal opportunity to achieve at high levels.

The annual program review, supporting documents, and revised schoolwide plan will be kept on file at the school site and made available to all stakeholders.

(See supporting documents for Annual Program Review.)

2. The monitoring and revision of the Title I Schoolwide Plan includes regular analysis of multiple types of data (e.g., student learning, demographic, process, perception) and necessary adjustments are made to increase student learning.

(See supporting documents for Comprehensive Data Profile and Annual Program Review.)

3. School leadership, including families and community stakeholders, and instructional staff regularly analyze interim and summative assessment data to evaluate instructional practices, determine patterns of student achievement, growth, and changes in growth gaps across classrooms, grade levels, and content areas.

(See supporting documents for Comprehensive Data Profile and Annual Program Review.)

Lens: Growth

Question: What percentage of students met their individual expected growth expectation (by grade and subject) and how does overall median growth compare to what is typical?

With default parameters, 60% of students are expected to meet their growth expectations. Student Growth Percentile (SGP) compares growth rate to that of peers. A median SGP of 35-65 is considered typical.*
